

Educators can access the Hoko Online Learning Resource Exchange to connect, collaborate and share resources with other subject-specialists across Aotearoa.

First, users follow a simple online registration process to create a profile.

Registered users can access a master list of courses. The current online infrastructure of each course is placed into one of four Internet Learning Indicator categories:

- 
- No Access:** A course has no internet-based infrastructure to support learning.
 - Web-supported:** A course is supported by an internet-based infrastructure, but there is no requirement for learners to engage in that infrastructure to successfully complete the course.
 - Web-enhanced:** A course has an internet-based infrastructure and there is a requirement for learners actively engage in learning through that infrastructure to successfully complete the course.
 - Web-based:** A course is fully delivered through an internet-based infrastructure.
